K12 ESOL

Looking @ Learning

*Look at Learning
Wednesdays are time
aside so that we can do
what we enjoy most -- look
together at learning -- both
our own and that of our
students.*

INTRODUCTIONS

Who are we and what do we do?

STANDARDS

How do we measure our own effectiveness and growth as teachers?

- ☒ Background
- ☒ Text rendering with handouts

ESOL & AS

How can we best serve students who may need both AS and ESOL?

How can we accurately identify student needs? What processes and tools exist to help us serve students?

NORMS

- * Assume best intent – be positive
- * Step up (and step down) to the buffet (volunteer when it's timely)
- * Make space, listen and reflect – allow for individual and cross-river differences
- * Seek knowledge as we evolve and embrace new ideas
- * Express opinions and ask questions safely
- * Build upon foundations – use what exists and remember to look at all that we have accomplished

WHAT DO WE KNOW?

WHAT DO WE WANT TO KNOW?
